

Starline M1C

Compact Passthrough Dishwasher with Heat Recovery Unit – 450mm rack
W 630mm x D 660mm x H 2030mm

The Starline M1C is a compact, versatile and highly efficient passthrough dishwasher that combines the latest technology with heavy duty stainless steel construction and componentry. With economical water consumption rates, integrated heat recovery system and powerful rinse heating, the M1C provides excellent wash results while being light on operating costs and the environment.

The M1C's intuitive electronic controls provide Soft Start, EcoPower, cycle customisation, chemical adjustability and immediate fault diagnosis. The M1C is fitted with a highly efficient heat recovery unit that minimises energy consumption and steam emissions for even lower operating costs and an improved working environment. Capable of fitting into a 510mm bench gap with 600mm deep benching, the M1C is the perfect machine for busy rest homes and restaurant kitchens with limited space.

Since 1981 Washtech dishwashers have been constructed in New Zealand from heavy-duty stainless steel, and are engineered specifically for New Zealand conditions and regulations. Backed by the most extensive service network and spare parts inventory in the region, your M1C will not let you down.

Special Features

- Suitable for installation without an extraction canopy in many situations
- Integrated heat recovery unit reduces steam emissions and energy consumption and optimises cold water operation
- Compact passthrough suitable for a 510mm benchgap and 600mm deep benching

Standard Features

- Autostart on hood closure
- 60, 120 and 180 second cycles
- Capacity of up to 840 plates / 960 glasses per hour
- Compatible with 365mm to 450mm racks
- Low water consumption of 2.4 litres per cycle
- Heavy-duty stainless steel construction and wash manifold
- Reliable double filtration system via scrap trays and separate wash inlet filter
- Advanced electronic controls
- Soft start wash cycle
- Easy installation with:
 - Water supply hose
 - Detergent and rinse aid pumps with injector lines
 - Drain pump with outlet hose
- Self-cleaning cycle
- EcoPower - reduced temperatures and energy consumption when machine is idle

Includes:

- 2 x 450mm dish rack (600 70081)
- 1 x 450mm cup rack (600 70080)
- 1 x cutlery container (C660503)

Bench detail

A - Cold Water

Temperature <25°C
Connection 3/4" male; hose supplied
Pressure 100-350kPa
Flow 10 litres per min
Quality Potable - refer table
Backflow Prevention AVB
Consumption 2.4 litres per cycle

B - Waste - Pumped Drain

Connection Hose supplied for open standpipe
750 high or connection to sink trap

C - Electrical	V	Hz	A/phase	Max kW
Three Phase	415	50	15	8.61
Single Phase	240	50	15	5.37

Dimensions

	Machine	Packed
Width (mm)	630	695
Depth (mm)	660	750
Height (mm)	2030	1970
Weight (kg)	80	101
Volume (m ³)		1.03

Water Quality

	Min	Max
pH	7	8
Hardness (ppm)	20	100
Cl ⁻		100
SO ₄		400
Fe		0.1
Mn		0.5
Cu		0.05
Cl ₂		0.1

Corner Installation Notes

- Machine must face left for easy access to controls
- Allow 300 clearance to front for service access
- Splashback return must be no higher than 150

Isolating switch must be within 1m of, and not directly behind the machine.

Suitable for installation without extraction canopy in most instances. Full certification from SEED available on request.

Refer to operator manual for installation instructions.
